1

**Charge:** With the provided USB cable

Firmly snap the magnetic charger to the back of your tracker. You should hear a small click when it's connected properly. Once connected, a red light above the SOS button will appear notifying you that the battery is charging. When the device is 100% charged, the light will turn green.

Charge for at least 2 hours before the first use.

2

**Turn on tracker**

Your tracker will turn on during charging, you can double check if the tracker is on by pressing the power button shortly. **Press and hold** the power button to turn the device **on/off**. Press shortly to check device status.

Light blinks twice if tracker is turned on.

First blink (1) shows network status, and second blink (2) shows GPS status.
