Towing Service Management

OVERVIEW:

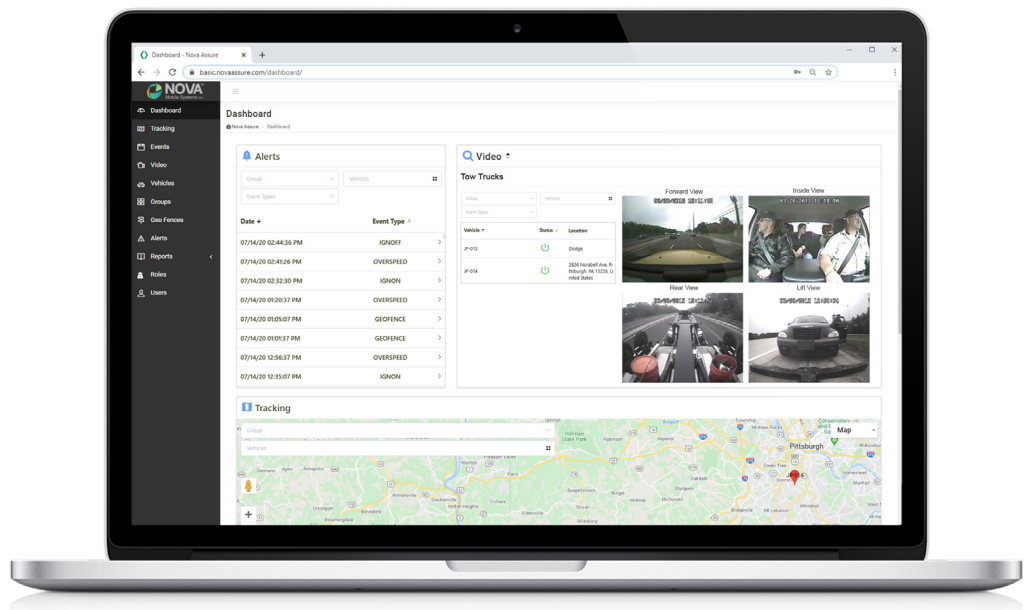

Nova Mobile Systems innovative and heavy-duty solutions created for tow and recovery provide crystal clear views of the entire area surrounding the truck and allow you to reap the benefits of safely protecting your investment at a budget-friendly cost. With Nova's Fleet Safety video system managers can review service calls, collisions and distracted driving events with full HD / 1080p footage that is automatically uploaded to the NovaAssure platform.

HARDWARE FEATURES:

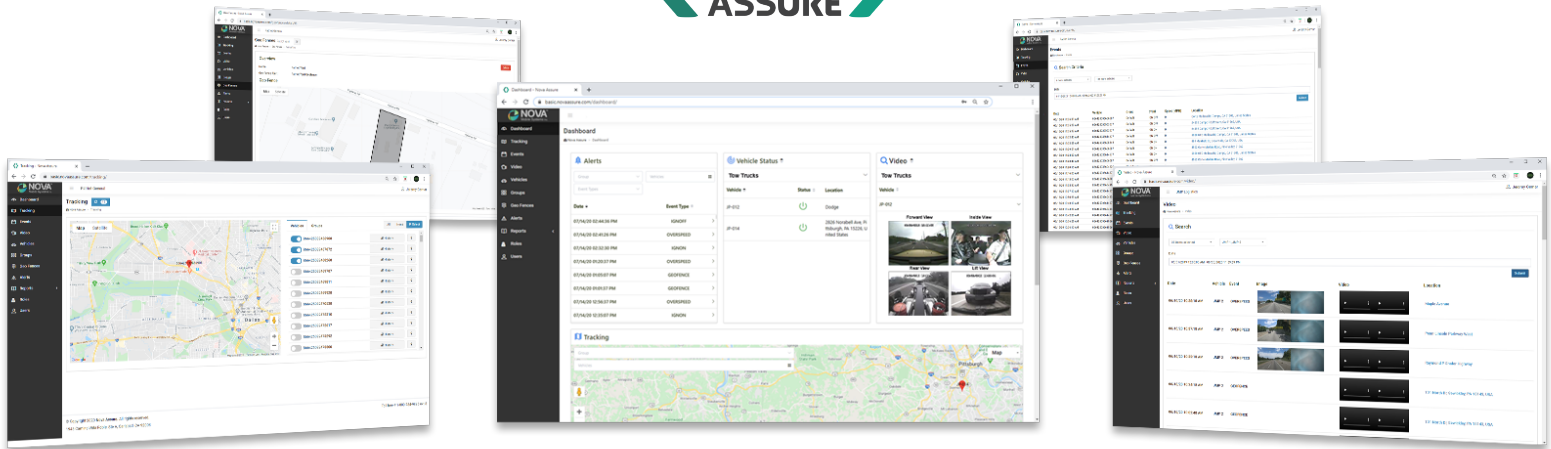

- Multiple HD 1080p cameras
- Event-based video clips
- 15 sec. clip and snapshot
- Multi day operation recording
- Encrypted H.265 video format

SOLUTION FEATURES:

- Real time local monitoring of the load from the cab with multiple 1080p cameras to assure everything is safe
- Video record of the hook up and customers vehicle for quality assurance and conflict mitigation
- Service site duration report showing time, location and duration of all service stops to measure performance
- Total time and miles spent for each service call to monitor driver efficiency

Integrated Platform Multi View

VISUAL OF PROTECTION:

- Operator live view
- Dash cam front/rear view
- Historical lookup

REAL TIME OPERATIONS MANAGEMENT:

Benefits:

- Improve operator performance
- Operator assignment
- Maintenance efficiency
- Lower service call times
- Vehicle assignment

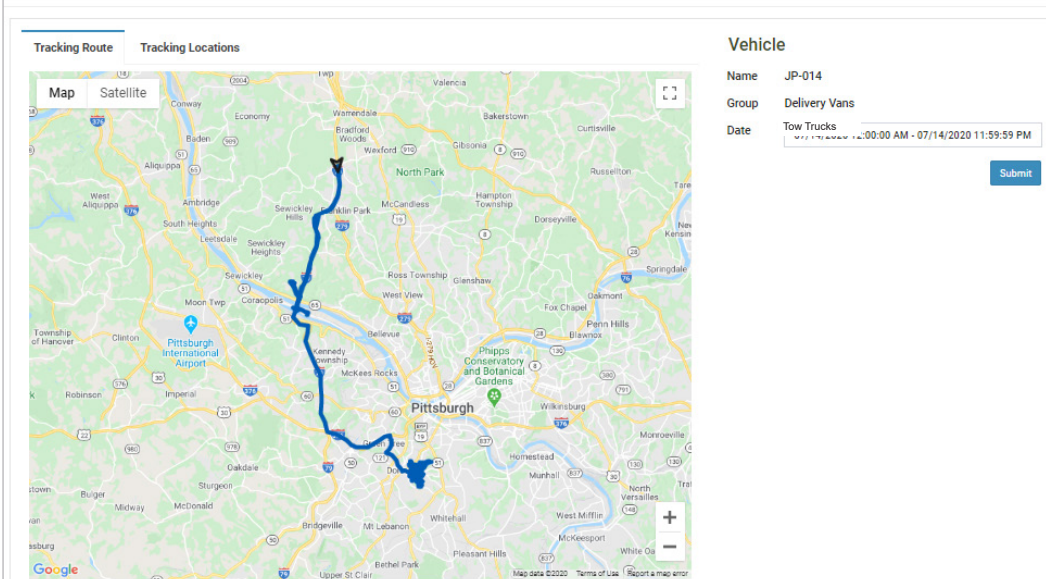

VEHICLE STATUS & HISTORICAL ROUTING:
