**GEOTAB®**

## Technology that Goes Beyond.

Automate, Integrate and Innovate. Our technology is designed from the ground up and built to support the needs of your workforce now and into the future.

Nova Mobile Systems Asset & Vehicle Tracking Solution lets you view real-time location of vehicles, driver information and vehicle behavior with live tracking. Ideal for companies with service, delivery, sales and field teams as well as fleet vehicles. Key data points such as mileage, braking, distance traveled and hours of usage can be used to automate business processes and increase productivity to save time. Management gets access to daily reports, trip details and driver history to help them better manage their team and weekly operations.

## SOLUTION FEATURES

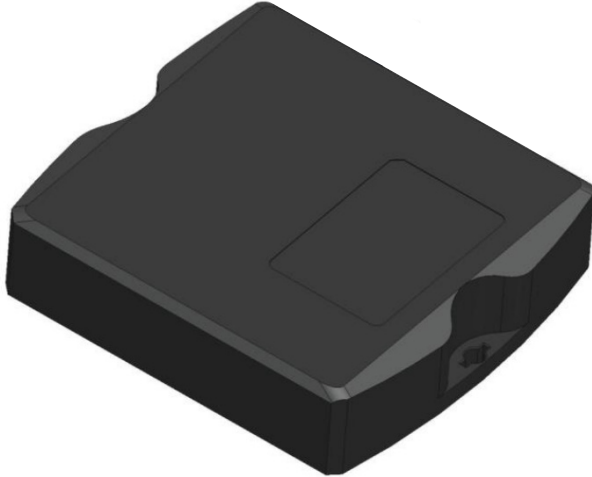

- Easy Setup & Installation
- Hours Of Service
- Tracking From Anywhere
- Geofence
- Location History
- Real-Time Alerts
- Historical Reports
- Monitor Driver Behavior
- Customizable

## BENEFITS:

- Real-Time Location
- Driver Behavior Alerts
- Odometer, Fuel Level and Usage
- Driver and Vehicle Safety

## SOLUTION HARDWARE

### NMS828

The NMS828 provides asset location tracking and receiving alerts when the asset has been moved or tampered with, plus many more features.

- Easy Setup & Installation
- Battery Powered
- OTA (Over the Air)
- Geofence
- Disconnect Theft Alarm
- LTE / CAT-M1
- Geofence
- Programmable Alerts

### NMS821 (5-10yr)

The NMS821 provides long lasting asset tracking for long term field deployments. Embedded with magnets allow straight forward application.

- Easy Setup & Installation
- Cell-ID Based Location
- OTA (Over the Air)
- Disconnect Theft Alarm
- LTE / CAT-M1
- Geofence
- 10,000mAh Battery

### NMS826 (1-4yr)

The NMS826 provides quick and easy application to vehicles and fleets for daily use on moderate to long range deployments using intelligent power management features.

- Easy Setup & Installation
- Cell-ID Based Location
- OTA (Over the Air)
- Disconnect Theft Alarm
- LTE / CAT-M1
- Geofence
- 7,800mAh Battery
