

## Technology that Goes Beyond.

Automate, Integrate and Innovate. Our technology is designed from the ground up and built to support the needs of your worksite or facility now and into the future.

The Nova SeeAssure Facilities video management system is a plug and play video and environmental monitoring system designed for environmental monitor and alerting. With 1080p high definition cameras and dual Wi-Fi / 4G LTE Cellular connectivity for fallback, it has highest quality and redundancy for surety.

Integrated with the NovaAssure IoT platform, SeeAssure provides real-time alerts for environmental disruption such as unexpected rise in temperature or humidity. The SeeAssure system comes configured and ready to plug in.

## SYSTEM FEATURES

- Live Stream Monitoring of your facility from anywhere anytime.
- Virtual Alerts - Cloud based alerts for environmental concerns (Temperature / Humidity). These can be sent to multiple persons at once and also have alerts sent to specific personnel according to the work schedule.
- Dual Communications = 100% Surety Wi-Fi and Cellular
- Power Backup with UPS assures power continuity
- Multi Camera 1-4 standard and expandable to 8
- Standard device data storage for 60 days. Expandable to meet your needs.
- No power or batteries required for camera management.
- Works in Low Light Conditions

## GENERAL USE CASES

- Maintenance Facilities
- Server Rooms
- Critical Entry / Exits
- Hospitality Vending and Pool Areas
- Inventory Areas
- Blind Spot Areas
