

In-Vehicle Video Management System

SeeAssure's innovative and heavy-duty solutions created for delivery and towing vehicles provide crystal clear views of the entire area surrounding the truck and allow you to reap the benefits of safely protecting your investment at a budget-friendly cost.

With SeeAssure's fleet safety video system managers can review service calls, collisions and distracted driving events with full HD / 1080p footage that is automatically uploaded to the NovaAssure platform.

SeeAssure Visual Fleet Management

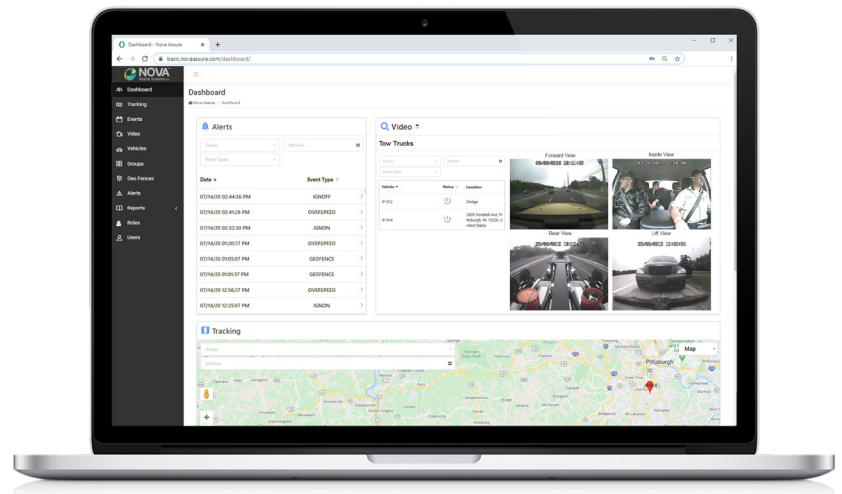

System Logistics
